WELCOME TO THE ST. MARTIN PARISH SCHOOL-BASED HEALTH CENTERS

Dear Parent/Guardian:

Thank you for choosing to enroll your child in the St. Martin Parish School-Based Health Center (SBHC). We want to welcome your family and give you some information about the SBHC and the services provided. Please keep this letter and refer to it when you need to. If you have any questions, please contact the SBHC Coordinator at (337)909-3040.

The SBHC must have parental consent prior to enrolling a student as a patient. A parent or guardian must sign both the Enrollment/Consent and Privacy Notice contained in this packet. There is also a disclosure for Telehealth services. For a more detailed explanation of our services, please contact your nearest SBHC. Once the parent fills out and signs the packet, the SBHC will provide or refer the student for any of the services that the child needs. Although the SBHC will attempt to keep parents informed of the services their child receives, signing the Enrollment/Consent and Privacy Notice gives the SBHC permission to provide medical and behavioral health services to the child without contacting the parent each time the child visits the SBHC**(Please note that immunizations require a separate consent form in addition to this one.)** No child is treated, counseled or referred without a consent form signed by a parent, except in an emergency situation. In emergencies, the SBHC will call the parent, but the SBHC is required by law to treat the child even if the parent cannot be reached. Please note that a consent form may be revoked anytime in writing by a parent/legal guardian.

The SBHC has doctors, nurse practitioners (NPs), nurses (RNs/LPNs) and counselors/social workers who care for students. All of these people are licensed/certified professionals.

Parents do not come out of pocket for any of the services that occur within the SBHC, however, insurance is billed. Please also note that if the SBHC refers the student out to another medical provider for a test or procedure that cannot be done within the SBHC (for example, X-rays, certain laboratory tests, etc.), you may get a bill from that provider.

The services listed in the packet are recommendations/requirements from the American Academy of Pediatrics (AAP) and the Louisiana Department of Health. They recommend these services because they help to prevent illness and keep children healthy.

Please note that we require your signature before your child can be seen in the SBHCs. The signature line is on the last page.

The Counseling Relationship
I see counseling as a process in which you, the client, and I, the Counselor, having come to understand and trust one another, work as a team to explore and define present problem situations, develop future goals for an improved life and work in a systematic fashion toward realizing those goals. Through this collaborative effort, we will work to explore and define present problems with client situations, develop future goals, personally and emotionally, and achieve success and personal fulfillment.

Areas of Expertise
I focus on clients within a school-based setting and see students from Pre-K to 12th grade. Students may be referred by self, parents, school, or juvenile court system.

Tele-Mental Health Services
Tele-mental health services may not be appropriate for everyone. After a discussion between us, it will be determined if you meet the criteria for Tele-Mental Health Services. A tele-mental health session involves the transfer of information; therefore, it needs to be done in such a way as to maintain the privacy and security of that information. Collecting the information privately means conducting the session in such a way that no one who isn't supposed to be involved in the service can see or hear the consultation. It is incumbent on the person receiving the services to maintain and insure their own confidentially, as well. Sending the information securely means that only those who have a right to access it by being directly involved in the care of the person receiving the services are able to have access.
I, the mental health professional:

- will take steps to ensure that quality of communication during a telehealth encounter is maximized. Any significant technical deficiencies should be noted in the documentation of the consultation.
- will be familiar with the technology in use.
- am aware of and acknowledges the limitations of video/audio in the provision of telehealth health care services.
- have received education/orientation in telehealth communication skills prior to the initial telehealth encounter.
- will strive to determine, to the best of my ability, the appropriateness for, and level of comfort with, telehealth for each individual prior to or at the initial encounter, while recognizing that this will not be possible in all situations.
- to the extent possible, will ensure that the client receives sufficient education/orientation to the telehealth process and communication issues prior to their initial telehealth encounter.

We will discuss and establish a 'crises plan' when you begin Tele-Mental Health Services.

Fee Scale
There is no charge to the students for services provided.

Services Offered and Clients Served
I approach counseling from a cognitive-behavioral perspective in that patterns of thought and actions are explored in order to better understand the clients' problems and to develop solutions. Play, person-centered therapy, and brief solution-focused therapy are also utilized. I work with the clients in a variety of formats, including individually, as a family, and as groups.

Code of Conduct
As a Counselor, I am required by law to adhere to the Code of Conduct for practice that has been adopted by my licensing board. A copy of this Code of Conduct is available to you upon request.

Privileged Communication
Material revealed in counseling will remain strictly confidential except for material shared under the following circumstances in accordance with state law: 1) The client signs a written release of information indicating informed consent of such release, 2) The client expresses intent to harm him/herself or someone else, 3) There is reasonable

suspicion of abuse/neglect against a child, elderly person (60 or older), or a dependent adult, or 4) A court order is received directing the disclosure of information.
It is my policy to assert privileged communication on behalf of the client and the right to consult with the client if at all possible, except during an emergency, before mandated disclosure. I will endeavor to apprise clients of all mandated disclosures conceivable.

Emergency Situations
If an emergency situation should arise, you may seek help through hospital facilities or by calling 911.

Client Responsibilities
You, the client, are a full partner in counseling. Your honesty and effort is essential to success. If as we work together you have suggestions or concerns about your counseling, I expect you to share these with me so that we can make the necessary adjustments. If it develops that you would be better served by another mental health provider, I will help you with the referral process. If you are currently receiving services from another mental health professional, I expect you to inform me of this and grant me permission to share information with this professional so that we may coordinate services to you.

Physical Health
Physical health can be an important factor in the emotional well-being of an individual. If you have not had a physical examination in the last year, it is recommended that you do so and to list any medications that you are now taking.

Potential Counseling Risk
The client should be aware that counseling poses potential risks. In the course of working together additional problems may surface of which the client was not initially aware. If this occurs, the client should feel free to share these new concerns with me.

I have read and understand the above information in this Declaration of Practices and Procedures of the Counselors with the St. Martin Parish School-Based Health Centers and my signature below indicates my full informed consent to services provided.

In the event an emergency arises, the bus driver shall pull over and dial 911 as per emergency protocol.

I, as parent/guardian, understand that I will not be charged for any of the services provided at the school-based health center. I also understand that St. Martin Parish School-Based Health Centers or the medical provider may bill Medicaid or other insurance providers for these services. I authorize/assign payments of authorized benefits directly to St. Martin Parish School-Based Health Centers.
By signing this consent, we (student and parent/guardian) acknowledge that we have read and understand the services to be provided at the school-based health center. We both give permission for this student to receive the services provided by the program.
This consent is effective while the student is enrolled in St. Martin Parish School System unless the School-Based Health Center is notified in writing that I no longer wish for my child to receive services. I understand that I may be asked to complete a one page form every year to update important information.
We understand that the school health center is operated by St. Martin Parish School District and its employees and contractors. We also understand that students with no health center on their campus may be transported by school bus to the health center from their school. School buses transporting students to and from school to the health center shall not carry emergency medications. In the event an emergency arises, the bus driver shall pull over and dial 911 as per emergency protocol.
